

Alic Szecei

SOFTWARE ENGINEER

24405 SE 133rd St, Issaquah, WA 98027

☎ 319.594.1016 | ✉ aszecei@gmail.com | 🏠 alic-szecei.com | 📱 aszecei | 🌐 alic-szecei

Skills

Languages C, C++, C#, Python, Lua, Rust, Kotlin, Java, JavaScript, Odin
Frameworks Avalonia UI, React, Flutter
Miscellaneous Git, Docker, Continuous Integration & Deployment, Machine Learning

Work Experience

Amazon

Seattle, WA

SOFTWARE ENGINEER II

Jul. 2025 - Present

- Spearheaded a greenfield implementation of a new contact center forecasting platform, built around a custom ML pipeline using AutoGluon and AWS SageMaker

Microsoft

Redmond, WA

SOFTWARE ENGINEER II

Aug. 2021 - Jan. 2025

- Designed and documented a tag-based JSON schema and configuration system to enable simultaneous rollouts across multiple hardware platforms, as well as code generation scripts to reduce coding time by 35% and limit configuration-related bugs
- Maintained a driver API service with high reliability requirements, including automated testing frameworks
- Architected and prototyped a platform-independent driver rewrite from C++ to Rust, maintaining existing C++ interoperability requirements, resulting in increased driver safety and compatibility with AccelNet FPGAs
- Performed live site DevOps rotations, interacting with numerous Fortune 500 companies and maintaining Microsoft SLA reliability requirements across hundreds of datacenters

SOFTWARE ENGINEER I

June 2019 - Aug. 2021

- Drove development of a new disk management service, integrating requirements and functionality from multiple teams
- Implemented C/C++ code across user- and driver-mode services to provide metrics and diagnostic data for live site maintenance

University of Iowa

Iowa City, IA

TEACHING ASSISTANT

Jan. 2016 - May 2019

- Taught Robot Theater outreach programs to 100+ students, applying principles of animation and robotics to NAO humanoid robots for live theater

Edammo, Inc.

Iowa City, IA

SOFTWARE ENGINEERING INTERN

May 2018 - Nov. 2018

- Improved overall performance of machine-learning solutions by 28.3% by profiling and optimizing critical C++ code

State Farm

Bloomington, IL

SYSTEMS INTERN

May 2017 - Aug. 2017

- Programmed a Processing shader to use Kinect motion tracker data for an interactive display board

University of Iowa

Iowa City, IA

RESEARCH ASSISTANT

Jan. 2016 - Dec. 2016

- Developed web, iOS, and Android applications for the National Advanced Driving Simulator and the College of Public Health

Allscripts

Springfield, IL

ASSOCIATE SOFTWARE ENGINEER

July 2014 - Jan. 2016

- Developed the FollowMyHealth iOS app, collaborating with developers to maintain feature parity with Android and web interfaces while adhering to healthcare privacy guidelines

Education

University of Iowa

Iowa City, IA

MASTER OF COMPUTER SCIENCE

Aug. 2016 - May 2019

University of Iowa

Iowa City, IA

BS IN COMPUTER SCIENCE

Aug. 2010 - May 2014

Service & Leadership

2019-2020 **Lead Developer**, Warfighter Engaged Collaborative Project

2019-2020 **Alumni Advisor**, EPX Video Game and Animation Studio

2018-2019 **Vice President**, Students in Technology and Sciences

2018-2019 **Vice President**, EPX Video Game and Animation Studio

2018 **Event Organizer**, EPX CON, the Midwest's largest animation and gaming conference
